

DINFIT

PRECISION FIT. BETTER DAYS.

SKI SIZING RESOURCE

QUICK GEAR CONFIDENCE

FIND YOUR FIT. SKI WITH CONFIDENCE.

A clear place to start before your next rental, purchase, or session.

WHY DINFIT

DINFIT makes ski sizing easier to understand before you step into a shop, book a rental, or make a purchase online. It organizes the factors that matter most - skier type, height, weight, age, and preferred terrain - into a clear starting point.

WHAT YOU GET

- A ski-length starting range
- Simple terms without the jargon
- Better questions for a ski shop

SKI LENGTH STARTING POINT

Use this guide as a quick reference, then confirm your final fit with a qualified ski shop or rental technician.

SKIER TYPE	SUGGESTED LENGTH	BEST FOR
Beginner	15-20 cm below height	Easy turning and confidence
Intermediate	10-15 cm below height	Balanced all-mountain skiing
Advanced	5-10 cm below height	More stability at speed
Powder / Freeride	Near skier height	Deep snow and off-piste terrain

BUILD A BETTER STARTING POINT.

DINFIT brings ski sizing basics and gear guidance into one simple place.
